

NENE ISRAEL

Software Developer | Digital Content & Social Media Strategist

Abuja/Lagos, Nigeria | +234 811 730 1315 | neneb220@gmail.com | linkedin.com/in/therealneneb1 | github.com/neneb

PROFESSIONAL SUMMARY

Full-stack developer and digital content strategist with hands-on experience in Python, Django, SQLite, HTML, CSS, and JavaScript, built through academic projects and a structured industrial training placement with the Industrial Training Fund (ITF). Over three years of professional experience managing social media strategy, content creation, and brand communications across multiple organizations. Designed and deployed a database-driven chatbot that automates student access to academic information. Combines working technical capability in web application development with proven strengths in content creation, brand management, and public relations. Seeking to apply both skill sets in a software development, digital marketing, or hybrid technical-communications role.

SKILLS

Technical: Python, Django, SQLite, HTML5, CSS3, JavaScript, Git/GitHub, RESTful APIs, Database Design, Full-Stack Web Development, Chatbot Development

Marketing & Communications: Social Media Strategy, Content Creation & Copywriting, Brand Management, Public Relations, Campaign Coordination, Community Engagement, Content Calendar Management, Analytics & Reporting

Other: Project & Event Coordination, Cross-Functional Collaboration, Team Leadership

PROFESSIONAL EXPERIENCE

Social Media Content Lead

January 2026 – Present

Department of Computer Science, Faculty of Computing, University of Delta, Agbor

- Independently lead content strategy for the department's final-year TikTok account, planning, filming, and editing all video content from concept to publish.
- Built and manage a consistent posting schedule that has strengthened account activity and audience engagement throughout the campaign.
- Direct the account's creative direction end-to-end, functioning as producer, editor, and publisher for every release.

Web Development Trainee (SIWES Industrial Training)

March 2025 – August 2025

Industrial Training Fund (ITF) – Model Skills Training Center, Maitama, Abuja

- Completed a structured six-month industrial training program in web development, building practical skills in front-end and back-end fundamentals.
- Applied web development concepts through guided exercises and training projects alongside instructors and fellow trainees.
- Supported general office operations during the placement, including administrative tasks, documentation, and day-to-day coordination.

Social Media Manager

2022 – 2023

Sauciest Gadgets

- Managed day-to-day social media accounts, producing daily content that maintained consistent brand visibility across platforms.
- Applied social media marketing tools to plan, schedule, and track content performance, strengthening overall brand presence.
- Strengthened follower engagement through consistent, platform-tailored content execution.

Social Media Manager

2021 – Present (Contract)

Adhapps.events

- Own daily content creation and account management, delivering consistent, on-brand posts across active platforms.
- Use social media marketing and analytics tools to monitor performance and adjust strategy, sustaining brand presence and reach.

PROJECTS

Student Information Chatbot — Final-Year Project

- Designed and built a database-driven chatbot enabling students to retrieve academic information through natural-language queries.
- Implemented the full stack using Python, Django, SQLite, HTML, CSS, and JavaScript, covering backend logic, database schema, and front-end interface.
- Structured the SQLite database and query logic to return accurate academic information in real time, reducing manual lookup effort for students.

LEADERSHIP & ACTIVITIES

- Public Relations Officer, Nigeria Association of Computing Students (NACOS), University of Delta, Agbor — managed communications and represented the association in departmental and inter-association engagements.
- Director of Sports, National Association of Delta State Students (NADESSTU), University of Delta, Agbor — planned and coordinated sporting events and activities for the student body.

EDUCATION

B.Sc. Computer Science, Faculty of Computing

2022 – 2026

University of Delta, Agbor, Nigeria

- Completed July 2026; official certificate pending issuance.

Secondary Education — Command Day Secondary School, Abuja (2015 – 2021)
